

Board Patterns

Clever Choice offers three variations of board pattern. The board pattern is generally the most widely used option with the most style and feature variations. It's suitable for spaces of just about any shape and size. Herringbone and Chevron board patterns are less common but ideal for big statement areas. They can become busy and visually overwhelming if used everywhere, so it's always recommended to pair them with a board pattern in the same colour.

Clever Choice is a market leader in supplying colour matched products across all ranges with an unrivalled level of no-repeat pattern variation.

Herringbone and Chevron products are becoming more popular within the industry. Traditionally, they are a very expensive option for customers. However, our design, material sourcing and manufacturing processes are bringing down costs so they're more aligned with everyday board ranges and becoming a viable solution for all Australians.

Look out for our extra wide boards for that additional touch of luxury.

Sleek boards create a timeless and spacious aesthetic that offers simplicity and versatility making it suitable for a wide range of sizes and styles.

A stylish, zig zag pattern adds a sense of movement and sophistication to any space. Herringbone quickly becomes the focal point of any room.

Elegance meets modernity with a unique V-shaped arrow pattern and striking 45 degree cuts that are enough to bring any space to life.
